Welcome

Dear subscriber,

Here is the new Update again. This Update will provide you with all the latest developments in the parking business.

Parking-Network will be present at the IPI International Parking Conference And Exposition from June 20th - 23rd. This event takes place at the SuperDome in New Orleans (USA).

Would you like to make an appointment, please feel free to contact Jorrit Weerman at info@parking-net.com.

Furthermore, we welcome our new sponsors: Vialis and BemroseBooth.

Hope you will enjoy this Parking Update again.

Kind regards from the editor and its team.

News Update

Cubic Expands Card Services Group

Cubic Transportation Systems, Inc. a subsidiary of San Diego-based Cubic Corporation, announced a major expansion of its Card Services Group. Cubic did this to pursue new commercial opportunities and provide administrative and management services that will help transport agencies leverage their smart card-based fare collection systems by linking them with other transportation-related and third-party products and services including parking, tolls, taxis, event ticketing, concessions, retail and security access control.

Town on track with phone and park plan

Andover is one of one of only two train stations in the country (UK) to make parking for passengers easier by using their mobile phones.

From Friday passengers at Andover and Fleet were able to pay for parking by making two short phone calls - one to activate and the other to terminate their parking session.

Parkfolio Neo: New-Generation Pay & Display Terminal Management Platform

Parkeon launches a new parking services management platform named Parkfolio Neo. The new solution comes with a variety of embedded services and is designed to boost operators and municipalities parking management efficiency, enhance their offering to end-clients whilst increasing their returns on investment.

Parkfolio Neo

The new platform is based on new-generation servers and novel 3-tier architecture coupled with a standard Java-based language development technology, providing greater flexibility, new functionalities and characteristics. The new architecture means servers are adapted to any kind of infrastructure, from local to remote access. In particular, Parkfolio Neo modules are designed to provide TCP/IP Distant Access from central servers hosted and administrated by Parkeon and/or its partners.

This solution also enables Parkeon to offer powerful and comprehensive value-added services from bureau service reports, hot-line and server hosting to end-to-end managed services contracts - making life easier both for the end-user and the operator. Parkeon and/or its partners can operate and manage distant access services and process electronic payment directly from their global network of data management centers for their customers, alleviating the need to hire specialised personnel, or to run and manage a dedicated system and network.

Forum Update

- **Good companies in the industry?**

Has an anybody heard of a company named Solwell (sp?) providing mobile parking solutions? I'm also interested in what people think are the leading companies in the industry-- both in the U.S. as well as in Asia. All input is greatly appreciated. Thanks!

Scott Bradley ()

- Scott, The only Solwell I was able to find appears to be a textile machine manufacturer in Taiwan. What aspects of Mobile Parking are you interested in? TSL are providers of mobile enforcement solutions and also Phone Parking solutions. Please refer to : - www.microsoft.com/sql/partners/technologysolutions/mobility or www.trafficsupport.co.uk Please contact me and let me know what your requirements are. John M Meyer Business Development Manager Traffic Support Limited +44 1925 570 570

John M Meyer (johnmetyer@trafficsupport.co.uk)

- **Cost of Parking Survey**

Does anyone know where I could find a survey outlining the cost of parking in various regions in the U.S.? Any help is much appreciated. Thanks very much.

Mott Smith (mottsmith@yahoo.com)

- The International Parking Institute (www.parking.org) publishes a directory called "Who's Who in Parking". This has a section on City Parking in North America and give what the hourly rate is.

IPI can be contacted on + 1 540 371 7575

John M Meyer (johnmeyer@trafficsupport.co.uk)

- **Student**

Hello, I am writing a project report on the possible/future improvement of existing mobile car parking system. (As in using SMS to pay the parked parking lot, instead of using coins, etc) May I ask your kind help to point out to me where is the best place to source for different case studies of countries implementing this mobile parking. Thank you very much!

Rico (wormy@starhub.net.sg)

Marketing

If you are interested in marketing rates please contact the e-mail address below

For more info: info@parking-net.com

ABOUT PARKING NETWORK IN MORE DETAIL...

How did the story start?

'6 years ago, their was the idea to centralize all the information concerning parking at one place on the Internet. In co-operation with the EPA, this platform was launched in 1996 and has grown into the worlds largest information source on parking.'

Why is Parking Network a success?

'The parking industry is overloaded with information. Finding qualified information is difficult. Due to time constraints professionals cannot read all this information. Parking Network gives the professional the opportunity to find well structured qualified information in one place on the Internet at any time and any place without any costs. Also, the platform enables the visitor to find unbiased vendor information.'

What can I find in Parking Network?

'In Parking Network you can search for companies indexed on their activities and solutions. Furthermore news, associations, showcases, literature, library, events, a forum and awards can be found. We send on a monthly basis an electronic update by e-mail. I would say: "Go there and find out for yourself."'

How do we get visitors to Parking Network?

'First of all Parking Network is indexed very high in all the major search engines. As an example in www.google.com on the keyword 'Parking', we are listed fifth. This is very high. Secondly, more than 500 web pages link to Parking Network as a valuable information source. For the marketing of Parking Network we work closely together with all the associations worldwide, the traditional media, tradeshow organizers, specialty societies and research institutes. The platform is managed by a community management team who send out on a frequent basis emails to the targeted audience. This all results in a visitor basis of more than 30.000 unique professionals who frequently visit Parking Network to find their information of interest.'

Who visits Parking Network?

'You can imagine that this platform gives the industry a very good overview of the parking industry worldwide. Therefore we attract the following visitors: public bodies, awarding authorities, project developers, the urban planning specialist, infrastructure consultants, purchase managers, and other persons interested in the latest developments in the parking industry.'
