## Welcome

Dear subscriber,

Welcome to our new update. This Update will provide you with all the latest developments in the parking business.

As the IPI show in New Orleans just has finished with a success, we can look forward to the show in Fort Lauderdale next year. Parking Network got great response at this year's show!

Hope you will enjoy this Parking Update again.

Kind regards from the editor and its team.

**Showcase Update**

## Company showcase

Parking: solutions to the parking infarct

# Vialis Company Showcase

June 2004

## Who Is Vialis?

Vialis supplies consultancy, services and systems for optimum processing of traffic flows. Whether this is on the road, for moving traffic or parked vehicles, on industrial estates or on the rail tracks. Vialis' main competencies are supplying functionality and making it available, supplying traffic-related consultancy and acting as integrator in linking systems together. These are utilised in the market segments of traffic, parking and rail transport.

The Vialis holding company is part of VolkerWessels and is the result of the merger of Nederland Haarlem, Volker Stevin Systems and NMA Railway Signalling. The companies within the holding company are Vialis Verkeer & Mobiliteit bv (traffic and parking), Vialis NMA Railway Signalling bv and Vialis NMA Railsystems bv (both rail).

The all-round experience and knowledge which Vialis has at its disposal means that it can take on not only part-projects, but also complete, turnkey projects. Vialis' position within the VolkerWessels group guarantees that all the disciplines needed for this are available in house. For example, in combination with its VolkerWessels partners, Vialis can even arrange financing and full realisation in public-private partnerships. As a result, Vialis is much more than just a consultant and a product and system supplier. Vialis is a service provider which develops, realises and finances projects fully independently, and can also provide after-sales service and maintenance. Vialis can deliver on this promise, as it has a nationwide service organisation at its disposal and an alarm switchboard which is available to its clients 24 hours a day, 365 days a year.

## Forum Update

- **Automatic Parking Systems**

If anyone knows something about this topic, I would like more informations and opinions about it. Thank you.

**Vazaios** ([delacroua7@hotmail.com](mailto:delacroua7@hotmail.com))

- **Need Help...**

Hi, I'm a degree student currently working on project on Car Park Management System. Is there anyone who can please provide me with some general information on the basics of the system? Thank you.

**Andrew**

- **Good companies in the industry?**

Has an anybody heard of a company named Solwell (sp?) providing mobile parking solutions? I'm also interested in what people think are the leading companies in the industry-- both in the U.S. as well as in Asia. All input is greatly appreciated. Thanks!

**Scott Bradley**

- Scott, The only Solwell I was able to find appears to be a textile machine manufacturer in Taiwan. What aspects of Mobile Parking are you interested in? TSL are providers of mobile enforcement solutions and also Phone Parking solutions. Please refer to : - [www.microsoft.com/sql/partners/technologysolutions/mobility](http://www.microsoft.com/sql/partners/technologysolutions/mobility) or [www.trafficsupport.co.uk](http://www.trafficsupport.co.uk) Please contact me and let me know what your requirements are. John M Meyer Business Development Manager Traffic Support Limited +44 1925 570 570  
**John M Meyer**  
( [johnmetyer@trafficsupport.co.uk](mailto:johnmetyer@trafficsupport.co.uk) )
- Thanks John for your input. I am actually representing a venture capital firm and was hoping to generate some discussion on the board about the players. Can you give me an idea of TSL's competitors? Are there more resources/articles that you would recommend reading up on to understand the industry? I think there's a lot of innovation going on here and I

appreciate all input. Thanks!

**Scott Bradley**

- You should look at a company called Verrus, they seem to do a good job with pay by cell phone parking, I use them every day in Seattle.  
**Bob** ( [racerbouy@hotmail.com](mailto:racerbouy@hotmail.com) )
- I appreciate the good feedback. Verrus does look very easy to use... at least the website looks quite user friendly.  
**Scott Bradley**

**These and other questions you can find in our forum.**

## Parking Network Exposure

### Parking Network Full Color Advertisement

The Parking Professional placed the Parking-Network advertisement in their March issue. This magazine is a monthly publication of The International Parking institute. This resulted in an increase of visitors to our platform.

## Marketing

**If you are interested in marketing rates please contact the e-mail address below**

For more info: [info@parking-net.com](mailto:info@parking-net.com)

## ABOUT PARKING NETWORK IN MORE DETAIL...

### How did the story start?

'6 years ago, their was the idea to centralize all the information concerning parking at one place on the Internet. In co-operation with the EPA, this platform was launched in 1996 and has grown into the worlds largest information source on parking.'

### Why is Parking Network a success?

'The parking industry is overloaded with information. Finding qualified information is difficult. Due to time constraints professionals cannot read all this information. Parking Network gives the professional the opportunity to find well structured qualified information in one place on the Internet at any time and any place without any costs. Also, the platform enables the visitor to find unbiased vendor information.'

### What can I find in Parking Network?

'In Parking Network you can search for companies indexed on their activities and solutions. Furthermore news, associations, showcases, literature, library, events, a forum and awards can be found. We send on a monthly basis an electronic update by e-mail. I would say: "Go there and find out for yourself."'

### How do we get visitors to Parking Network?

'First of all Parking Network is indexed very high in all the major search engines. As an example in [www.google.com](http://www.google.com) on the keyword 'Parking', we are listed fifth. This is very high. Secondly, more than 500 web pages link to Parking Network as a valuable information source. For the marketing of Parking Network we work closely together with all the associations worldwide, the traditional media, tradeshow organizers, specialty societies and research institutes. The platform is managed by a community management team who send out on a frequent basis emails to the targeted audience. This all results in a visitor basis of more than 30.000 unique professionals who frequently visit Parking Network to find their information of interest.'

### Who visits Parking Network?

'You can imagine that this platform gives the industry a

very good overview of the parking industry worldwide. Therefore we attract the following visitors: public bodies, awarding authorities, project developers, the urban planning specialist, infrastructure consultants, purchase managers, and other persons interested in the latest developments in the parking industry.'
