● **Computerized parking system in Pakistan**

Greetings There, We are a security comany and wants a computerized parking system in pakistan. This system can help us to track all the records of the vehicles that get in to our vicinity and cross check all the information. We need your help and guidance in this regards.

**Khurram Khan** ( [g-r-sco@g-r-s.com](mailto:g-r-sco@g-r-s.com) )

- Hello Mr.Khan, There are several good systems out there, I will compile you a list of firms and send it to you. I do have a couple of questions that will help me refer you to the most appropriate systems. 1.What kind of volume are you expencting 2.How many lots are you covering 3.How many guards are you using 4.What type of operating system are you using Talk to you soon.

**Miro Pilas**( [miropilas33@hotmail.com](mailto:miropilas33@hotmail.com) )

Has anyone had RECENT experience with Federal APD parking equipment? Quality, training, ect.

Jeff Tait ( [bigjeff007@aol.com](mailto:bigjeff007@aol.com) )

- **Capacity of elements of parking system**

Hi all, I'm involved in a research project in which we try to analyse the capacity in term of vehicules per hour of all important elements of a parking system, i.e. - access lane - gates - ticketing systems - aisles - elevators - ... The objective is to give recommendations to planners on how many of these elements they should put into their parkings for a particular demand. We're doing ourselves in field surveys, but we're also searching for existing surveys and values experiences planners use in their parkings. So it would be a great help if you could give us information about the following questions: - How many cars per hour can pass at a gate - how many parking places can be connected trough just one aisle - What is the capacity of a ramp Furthermore we are highly intrested in existing computer moddels of parking system so that we can compare to our own model. Many thanks for every help. Simon

## Parking Network Exposure

### Parking Network Version 2.0

The parking network is undergoing a large change regarding to exploiting the newest techniques in web development. With the new software (referred at as parking-net 2.0) we are going to exploit this advantage, by giving the visitors even more opportunities to share their knowledged and facts!

Visitors will get notified when the implementation of parking-net 2.0 starts.

## Marketing

**If you are interested in marketing rates please contact the e-mail address below**

For more info: [info@parking-net.com](mailto:info@parking-net.com)

## ABOUT PARKING NETWORK IN MORE DETAIL...

### How did the story start?

'6 years ago, their was the idea to centralize all the information concerning parking at one place on the Internet. In co-operation with the EPA, this platform was launched in 1996 and has grown into the worlds largest information source on parking.'

### Why is Parking Network a success?

'The parking industry is overloaded with information. Finding qualified information is difficult. Due to time constraints professionals cannot read all this information. Parking Network gives the professional the opportunity to find well structured qualified information in one place on the Internet at any time and any place without any costs. Also, the platform enables the visitor to find unbiased vendor information.'

### What can I find in Parking Network?

'In Parking Network you can search for companies indexed on their activities and solutions. Furthermore news, associations, showcases, literature, library, events, a forum and awards can be found. We send on a monthly basis an electronic update by e-mail. I would say: "Go there and find out for yourself."'

### How do we get visitors to Parking Network?

'First of all Parking Network is indexed very high in all the major search engines. As an example in [www.google.com](http://www.google.com) on the keyword 'Parking', we are listed fifth. This is very high. Secondly, more than 500 web pages link to Parking Network as a valuable information source. For the marketing of Parking Network we work closely together with all the associations worldwide, the traditional media, tradeshow organizers, speciality societies and research institutes. The platform is

managed by a community management team who send out on a frequent basis emails to the targeted audience. This all results in a visitor basis of more than 30.000 unique professionals who frequently visit Parking Network to find their information of interest.'

**Who visits Parking Network?**

'You can imagine that this platform gives the industry a very good overview of the parking industry worldwide. Therefore we attract the following visitors: public bodies, awarding authorities, project developers, the urban planning specialist, infrastructure consultants, purchase managers, and other persons interested in the latest developments in the parking industry.'
