Welcome

Dear subscriber,

Once again welcome to the new Parking Update. The month February has brought us numerous interesting news items, library items and product development. Feel free at all time to contact us and to add your own news.

Good luck at the BPA Awards and hopefully until next month!

the 'Parking Network' team.

News Update

**Nokia announces the world's first NFC enabled mobile product for contactless payment and ticketing**

Nokia today introduced a new product for secure mobile contactless payments and ticketing. The world's first Near Field Communications (NFC) product for payment and ticketing will be an enhanced version of the already announced Nokia NFC shell for Nokia 3220 phone. It delivers the promise of NFC based services, covering service discovery, payment and ticketing. The Nokia NFC shell will provide the first opportunity for consumers, mobile operators and service providers to benefit from an easy, touch-based access to services and content.

**New Bursary to study Parking at University of Westminster**

The British Parking Association (BPA) is to provide funding for one full-time student each year on the Masters in Transport Planning & Management course at the University of Westminster. This will comprise fees plus a cost of living allowance of £10,000, and will run for a period of five years. It will be known as 'The John Heasman Bursary' to commemorate the work done by John Heasman as founding Director General of the BPA.

## Forum Update

- **Revenue control systems**

I am looking for a valet and self park revenue control system. If you can help in anyway and if you have names of a few companies that have valet parking systems that would help.

**Valerie Trejo** ([vtrejo@bur.org](mailto:vtrejo@bur.org))

- Hi Valerie, If you want to search for company's, you can search in the 'industry' section of this site! Just select as activity "Valet revenue control" and leave the other fields what they are. Click the search button, and you will find 27 results! Probably one of them will do the job for you.

**Renzo Sartorius** ([renzosartorius@parking-net.com](mailto:renzosartorius@parking-net.com))

- We are currently working on several projects through out the United States. Our software AVPM (Automated Valet Parking Manager) is designed for valet and self parking management and revenue control purposes as well as garage entry (video imaging for each car), oversize vehicle warning and license plate recognition systems. We will be more than happy to come and visit you in your office for a demo and discuss your needs. We are located in Fort Lauderdale, Florida. Please let me know how I can further assist you. Best regards, Gokhan

**Gokhan Gulec** ([ggulec@AVPManager.com](mailto:ggulec@AVPManager.com))

- **parking space for lease**

I am currently looking for additional parking space (min. 30 spots) in the Buckhead bar district. The parking would not be used for bar patrons nor public parking but rather as overflow for one of our clients. Most convenient would be a lot(s) on or in the vicinity of Buckhead Avenue, Pharr Road, Peachtree Road, or East Paces Ferry Road in Atlanta, GA, USA. Thank you for your help

**Beau Terrell** ([BTerrell@carterusa.com](mailto:BTerrell@carterusa.com))

These and other questions you can find in our forum.

## ABOUT PARKING NETWORK IN MORE DETAIL...

### How did the story start?

'9 years ago, their was the idea to centralize all the information concerning parking at one place on the Internet. In co-operation with the EPA, this platform was launched in 1996 and has grown into the worlds largest information source on parking.'

### Why is Parking Network a success?

'The parking industry is overloaded with information. Finding qualified information is difficult. Due to time constraints professionals cannot read all this information. Parking Network gives the professional the opportunity to find well structured qualified information in one place on the Internet at any time and any place without any costs. Also, the platform enables the visitor to find unbiased vendor information.'

### What can I find in Parking Network?

'In Parking Network you can search for companies indexed on their activities and solutions. Furthermore news, associations, showcases, literature, library, events, a forum and awards can be found. We send on a monthly basis an electronic update by e-mail. I would say: "Go there and find out for yourself."

### How do we get visitors to Parking Network?

'First of all Parking Network is indexed very high in all the major search engines. As an example in [www.google.com](http://www.google.com) on the keyword 'Parking', we are listed fifth. This is very high. Secondly, more than 500 web pages link to Parking Network as a valuable information source. For the marketing of Parking Network we work closely together with all the associations worldwide, the traditional media, tradeshow organizers, specialty societies and research institutes. The platform is managed by a community management team who send out on a frequent basis emails to the targeted audience. This all results in a visitor basis of more than 30.000 unique professionals who frequently visit Parking Network to find their information of interest.'

### Who visits Parking Network?

'You can imagine that this platform gives the industry a very good overview of the parking industry worldwide. Therefore we attract the following visitors: public bodies, awarding authorities, project developers, the urban planning specialist, infrastructure consultants, purchase managers, and other persons interested in the latest developments in the parking industry.'
