## Welcome

Dear subscriber,

Welcome to our new update. This Update will provide you with all the latest developments in the parking business.

At this moment, Jorrit Weerman from Parking-Network is present at the IPI Conference "[Challenge 2005](#)" from May 22nd till 25th at "Fort Lauderdale Convention Center" in Florida (USA).

Do you still like to make an appointment? Please do not hesitate to contact Jorrit Weerman at [jorrit@mobileemail.vodafone.nl](mailto:jorrit@mobileemail.vodafone.nl) or +31 6 21 20 38 66.

This years' Parking Network Creativity Award will be handed out after this IPI Conference (IPI is not affiliated). This is the second time our award will be handed out, and this time our visitors took the chance give in their opinions. We would like to thank you for your participation!

Hope you will enjoy this Parking Update again.

Kind regards from the editor and its team.

## Events Update

### [Parkopolis](#)

**Palais des Congres  
Paris, France**

06.07.2005 / 06.08.2005

**Description:**

Under the aegis of our new Federation, the Federation "Nationale des Metiers du Stationnement (FNMS)", in close association with the "Groupe Moniteur", we invite you to the "7th Rencontres Internationales du Stationnement".

### [Parken 2005](#)

**Messe Frankfurt Ausstellungen GmbH  
Wiesbaden, Germany**

06.15.2005 / 06.16.2005

**Description:**

Specialized exhibition and conference for planning, building and enterprise of mechanisms of resting traffic.

The exhibition emphasis reaches from credit card and magnetic card systems, parking meters and gate barriers over hard and software for administration and instrumentation up to safety and video mechanisms as well as complete park plants. Besides product previews there will also be a lot of service providers for financing and management.

At the previous Parken, in 2003, more than 70 exhibitors were present.

### [Intertraffic Asia, 15th IRF World Meeting](#)

**Bangkok, Thailand**

06.16.2005 / 06.20.2005

**Description:**

In conjunction with the 15th IRF - Internation Road Federation - World Meeting 2005.

From the 16th to the 20th of June 2005, Bangkok RAI will be the focal point of the traffic and transport infrastructure industry. Intertraffic Asia will open its doors to an expected 4,000 visitors from the South East Asian region.

## Forum Update

### Parking General

- **Wireless lighting fixtures**

A small team of Intel wireless/sensor experts is starting a new company to do wireless sensors for lighting fixtures - specifically focused on parking garages initially. We believe we can inexpensively provide wireless management of the entire lighted environment, as well as dramatically reduce energy costs due to ballast management (dimming, on/off, etc) and wireless monitoring/control. Three things we're looking for: market research and garage TAM/sizing data; 2nd: is anyone interested in participating in early sales/trials and third - we're looking for a worldwide parking/lighting industry executive to join our management team, based in California. Thanks for any inputs.

**Peter Van Deventer** ([petervandeventer@yahoo.com](mailto:petervandeventer@yahoo.com))

- I've once met a guy who did a thesis on a subject similar to this. Maybe this helps: <http://ubicomp.org/ubicomp2004/adjunct/posters/randall.pdf>  
**Simon Schneebeli** ([simon\\_me\\_76@yahoo.com](mailto:simon_me_76@yahoo.com))

- **Internal Theft/Fraud**

Hi there everyone, this is my first time to these boards, I hope this will become a frequent source of information for me, as well as offering any advice to help other myself. I am the supervisor in a multi-storey carpark using SkiData SPT 400

systems and Management Software, but we are losing assets as a result of internal theft from Carpark Attendants. I was wondering if anybody could offer me some guidance on the SPT 400 Management Software and its functions that can help me detect, and eradicate this theft. I suspect our car-park attendants are giving manual exits, but taking payments for tickets, customers are tail-gating to obtain free exits, and also I have heard that there are some dip-switches within the exit-barriers that can be switched to disable logging of manual exits. I have also hear, but cannot confirm that the system does not log manual exits between 10:40pm and 11pm. Can anyone offer me some advice, Many thanks, Jonathan.

- **Representative needed for the UK**

Ganis Systems, leading in-car parking meter manufacturer, is looking for a distributor/agent for the UK market. Smart Park is currently being used in over 40 locations worldwide and we are now trying to enter the UK market. For more information - <http://ganis-systems.blogspot.com/> We need an agent that is experienced in the UK parking sector and that will be able to help Ganis speak to the right people in the city councils. Anyone interested in working with us is welcome to email me.

## On Street Parking

- **Master Parker**

Hi, what is a good pay-on-street parking system? [sacparking@hotmail.com](mailto:sacparking@hotmail.com)

**Jack Hoff** ([sacparking@hotmail.com](mailto:sacparking@hotmail.com))

- The best solution is one that gives the motorist a fair way of paying the fee and that brings in revenue for the council. In car parking meters can offer such a solution - the customer pays for what he/she has parked. no risk of getting a fine and the council received payment up front.

## Underground Parking

- **Reference materials or sample docs available?**

The organisation is currently constructing a new office/ club and retail facility with 460 subterranean car parking facility. It is anticipated that the organisation will be operating the facility themselves rather than engaging a specialist operator. I have been asked to investigate what issues need to consider in drafting a management procedural plan/ doc for operating a car park business. Are there any reference materials or sample docs available to assist in this process?

**Jeff Hoh** ([Jeff\\_Hoh@racv.com.au](mailto:Jeff_Hoh@racv.com.au))

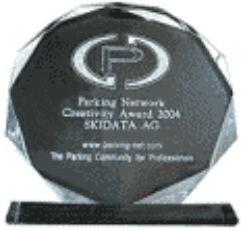

- Try checking the available materials on this page of this site: <http://www.parking-net.com/Literature.aspx> or click the 'Literature' button to the left. Failing that, try calling or browsing the

## Parking Network Exposure

### Parking Network Creativity Award

The Parking Network Creativity Award 2005 will be handed out after the coming IPI conference "[Challenge 2005](#)" (May 22 - May 25) . This is the second time our award will be handed out, and this time you took the chance to give in your opinion!

The Parking Network Creativity Award will be handed out to the most innovative/creative company at this moment. In the past we had judged the companies on our view of the parking world. This was created by seeing many products, stands, idea's and initiatives from companies in and out our large listing. But last year, we missed your input! For this edition, we would like to thank you for your opinions!

By the end of this week, there will be a report of the award winning company at Parking Network.

## Marketing

**If you are interested in marketing rates please contact the e-mail address below**

For more info: [info@parking-net.com](mailto:info@parking-net.com)

## ABOUT PARKING NETWORK IN MORE DETAIL...

### How did the story start?

'9 years ago, there was the idea to centralize all the information concerning parking at one place on the Internet. In co-operation with the EPA, this platform was launched in 1996 and has grown into the worlds largest information source on parking.'

### Why is Parking Network a success?

'The parking industry is overloaded with information. Finding qualified information is difficult. Due to time constraints professionals cannot read all this information. Parking Network gives the professional the opportunity to find well structured qualified information in one place on the Internet at any time and any place without any costs. Also, the platform enables the visitor to find unbiased vendor information.'

### What can I find in Parking Network?

'In Parking Network you can search for companies indexed on their activities and solutions. Furthermore news, associations, showcases, literature, library, events, a forum and awards can be found. We send on a monthly basis an electronic update by e-mail. I would say: "Go there and find out for yourself."'

### How do we get visitors to Parking Network?

'First of all Parking Network is indexed very high in all the major search engines. As an example in [www.google.com](http://www.google.com) on the keyword 'Parking', we are listed fifth. This is very high. Secondly, more than 500 web pages link to Parking Network as a valuable information source. For the marketing of Parking Network we work closely together with all the associations worldwide, the traditional media, tradeshow organizers, specialty societies and research institutes. The platform is managed by a community management team who send out on a frequent basis emails to the targeted audience. This all results in a visitor basis of more than 30.000 unique professionals who frequently visit Parking Network to find their information of interest.'

### Who visits Parking Network?

'You can imagine that this platform gives the industry a very good overview of the parking industry worldwide. Therefore we attract the following visitors: public bodies, awarding authorities, project developers, the urban planning specialist, infrastructure consultants, purchase managers, and other persons interested in the latest developments in the parking industry.'
