### **ParkingHQ® Reporting - Always knowing what's going on in your entire parking business**

Consolidated reporting of your relevant parking data is a real business advantage. No longer you have to look up and match native application reporting from your CPMS, your back office or service systems to get the whole picture. Thanks to ilogs, ParkingHQ Reporting Server provides you with a web-based reporting portal, which contains relevant reports, analysis and statistics. Now, your parking business data is in a single place, convenient and most of all, comparable over different data sources. For example, see entries from your CPMS, eCommerce revenues and customer support statistics in one report. Furthermore, your different data sources are fully customizable, and so are your reports and analysis. ParkingHQ Reporting Server comprises of 25 of the most important parking reports in its standard version.

# PARKINGHQ® REPORTING

ALWAYS KNOWING WHAT'S GOING ON

## MAIN FEATURES

More than 25 comprehensive parking business reports

Reporting output to standard file formats (PDF, Excel, XML, HTML)

Login securely from any web-browser and dedicated Reporting-APP

Distribute reporting output easily via email

Integrated import of generic reporting data: Excel Sheets, other Interfaces

Standard reporting data update scheduler, once a day or even once per hour

Compare your selected car-parks using different filter criteria

Analyze your data on yearly, monthly, daily or hourly bases

Grant individual rights to have your reporting users access their individual reports or car-park data

Multi-tenant  
Multi-user  
Multi-language

Provide automated reporting to your customers, tenants, leaseholders or building-owners by allowing them access your reporting portal

# BENEFITS

Select Report

Choose Input Controls

Report & Analytics

The screenshot displays the iLogs software interface. On the left, there are several report categories: CAR PARK REPORTS (Monthly, Weekly, Daily Car Park Evaluation), MOVEMENT REPORTS (Annual Summary Entries, Annual Summary Contract Parker, Annual Summary Manual Openings, Annual Evaluation Dwell Time), OPTIONAL REPORTS (Daily Car Park Occupation), FINANCIAL REPORTS (Annual Summary Discount amounts, Annual Summary Discounts, Annual Summary Total Revenues, Annual Summary Credit Card Revenues, Annual Summary Contract Parker, Annual Summary Prepaid Revenues, Annual Summary Short-term Parker, Discounter / Discount Unit, Cash Dispenser Openings), and TELEPHONY REPORTS (Daily, Monthly, Annual, Car Park Telephony Response Time, Total Daily Calls, Total Monthly Calls, Total Annual Calls, Total Car Park Calls). In the center, an 'Input Controls' dialog box is open, allowing selection of a Tenant (Control Center, ParkingHQ) and Car park (Bryan Towers, City Parking Athen, Designa iLogs car park, Sundance Square Garage 3 (SB), Waterway Square Parking). Below this, a line chart shows 'Net amounts (CP, STP, PP and Total Revenues)' for June 2016, with a legend for Entries and Revenues. On the right, a PDF icon is visible. At the bottom, a 'Monthly Car Park Evaluation - Gross' report is shown, which is a table of aggregated data.

Date	# Entries	# Entries CP	Discount amount	# Discounts	# Manual Openings	Total Revenues	CC Revenues	CP Revenue	Prepaid Revenues	STP Revenue	e Parking Time*
